Portfolio: [Meet Patankar](#)

Objective

Seeking a Cybersecurity or Cloud role in a growth-driven organization that values innovation, collaboration, and professional development. Leveraging technical expertise in network security, penetration testing, and cloud solutions to protect infrastructure and drive operational excellence.

Summary

Certified Penetration Tester (C) PTE, CyberSecurity and Cloud Computing graduate with firsthand experience in:

- **Network Security:** Configuring/troubleshooting OSPF, EIGRP, RIP; VoIP system hardening.
- **Cybersecurity:** Vulnerability assessments, penetration testing, incident response.
- **Cloud Security:** AWS/GCP/Azure fundamentals, CI/CD pipelines.
- **Technical Skills:** Python, C, JavaScript, SIEM tools (Splunk), firewall configuration.

Skills

- **Security Tools:** Splunk, Wireshark, Metasploit, Nmap, Burp Suite.
- **Cloud:** AWS, Azure, Docker, Kubernetes, Jenkins.
- **Networking:** LAN/WAN, VoIP, OSPF, EIGRP, VPNs.
- **Programming:** Python, C, C#, JavaScript, HTML/CSS.
- **Certifications:** C) PTE (Mile2, 2021–2024), CompTIA Security+ (In Progress).

Licenses and Certifications

- Certified Penetration Testing Engineer (C)PTE | Mile2 | Aug 2021 – Aug 2024

Education

- **Bachelor of Engineering, Computer Engineering** | Gujarat Technological University | Jun 2021
- **Post-Graduate Certificate, Cybersecurity** | Durham College | Sep 2023 - Apr 2024
- **Post-Graduate Certificate, Cloud Computing** | Durham College | Expected Apr 2025

Experience

VoIP Intern, Vindaloo Softtech Pvt Ltd, Ahmedabad, Gujarat, India (10/2022 – 01/2023)

- Assisted in the deployment and configuration of VoIP systems for clients.
- Conducted testing and troubleshooting of VoIP networks and equipment.
- Documented VoIP installations and configurations, ensuring accuracy and completeness.
- Provided technical support to clients, resolving issues and ensuring smooth system operation.
- Assisted in evaluating and recommending VoIP solutions.

IT Support, 3i Infotech, Ahmedabad, Gujarat, India (02/2023 – 05/2023)

- Provided end-user technical support, troubleshooting hardware and software issues.
- Assisted in the configuration and maintenance of network devices and systems.
- Responded to user inquiries and resolved IT-related problems promptly and effectively.
- Collaborated with the IT team to implement system upgrades and perform regular maintenance tasks.
- Conducted user training sessions on new technologies and software applications.
- Documented IT processes and procedures for future reference.

Project

Image Comparator, 2020 to 2021

- Led a project team in developing an OCR system for detecting image content and enabling data saving and sharing.
- Successfully implemented the image comparison feature, allowing users to compare interfaces, images, and documents.
- Developed a robust system that effectively detected and highlighted differences between two images/UI.

SIEM Lab (Home lab) | 2023

- Configured Splunk to monitor/log network traffic, detecting 10+ simulated attacks in a test environment.
- Automated alerts for suspicious activity using Python scripts
